

Recently, we have partnered with Openpay to give our customers the opportunity to make their payments in instalments over 2 – 4 months.

Importantly, these instalments are interest free, always.

How does it work?

At the time of setting up your payment plan you will pay 20% of the value and the balance will be automatically charged in fortnightly instalments across the duration of the plan you choose.

How to get started with Openpay

1. Get the app

On your smartphone use the QR code to download the Openpay app. Then set up an Openpay account on the app and link either your credit or debit card.

2. Check your details

If your available balance is less than the value of your membership, apply for pre-approval for the higher amount (this approval is given instantly).

3. Enter your PIN

Openpay will allocate you a 'Customer ID' number. Have this number ready to quote to us when setting up your plan (this can be done over the phone).
